DOLLS HOUSE FAMILY
p.98

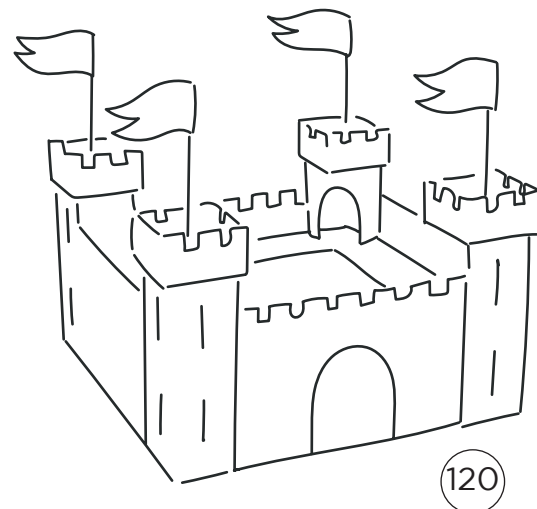

Hi there.

We're Steven and Marie Le Van. Welcome to the world of Le Toy Van. We are a big hearted, honest talking family business with a lifelong passion for creating traditional wooden toys. Our story began almost three decades ago, when Georges Le Van created the first ever Le Toy Van toy, our beloved Wooden Dolls House. His vision was simple. To create beautiful, unique toys, lovingly made with intention, to stand the test of time. Fast forward a few years (and a lot of toys later) and together, we are extremely proud to sit at the helm of this wonderful business. Our mission is simple - to continue to make toys that spark young imaginations through learning based fun, ready to be cherished and enjoyed for a lifetime of play. Of course, we do this in a sustainable way too, improving processes and working towards our 'plastic-free' promise, to help protect our planet for a brighter tomorrow.

We hope you feel inspired to explore our toy shop, bursting with imaginative wooden treasures that bring the magic of play to life, today and for generations to come. Thank you for being a part of our journey.

With love, Steven, Marie, Louis
and the Le Toy Van Family x

- 123 Merchandising Solutions

1. Back in 1994 our founder, Georges Le Van created the very first Le Toy Van toy from his workshed - A beautiful wooden Dolls House.

2. As the word spread, we began production of our beloved dolls houses in 1996

3. A little idea grew and in 1998 we attended our first ever Toy Fair in Nurnberg, Germany.

4. We extended our talented team of toy makers and international partners, and created new wooden toys to add to our range.

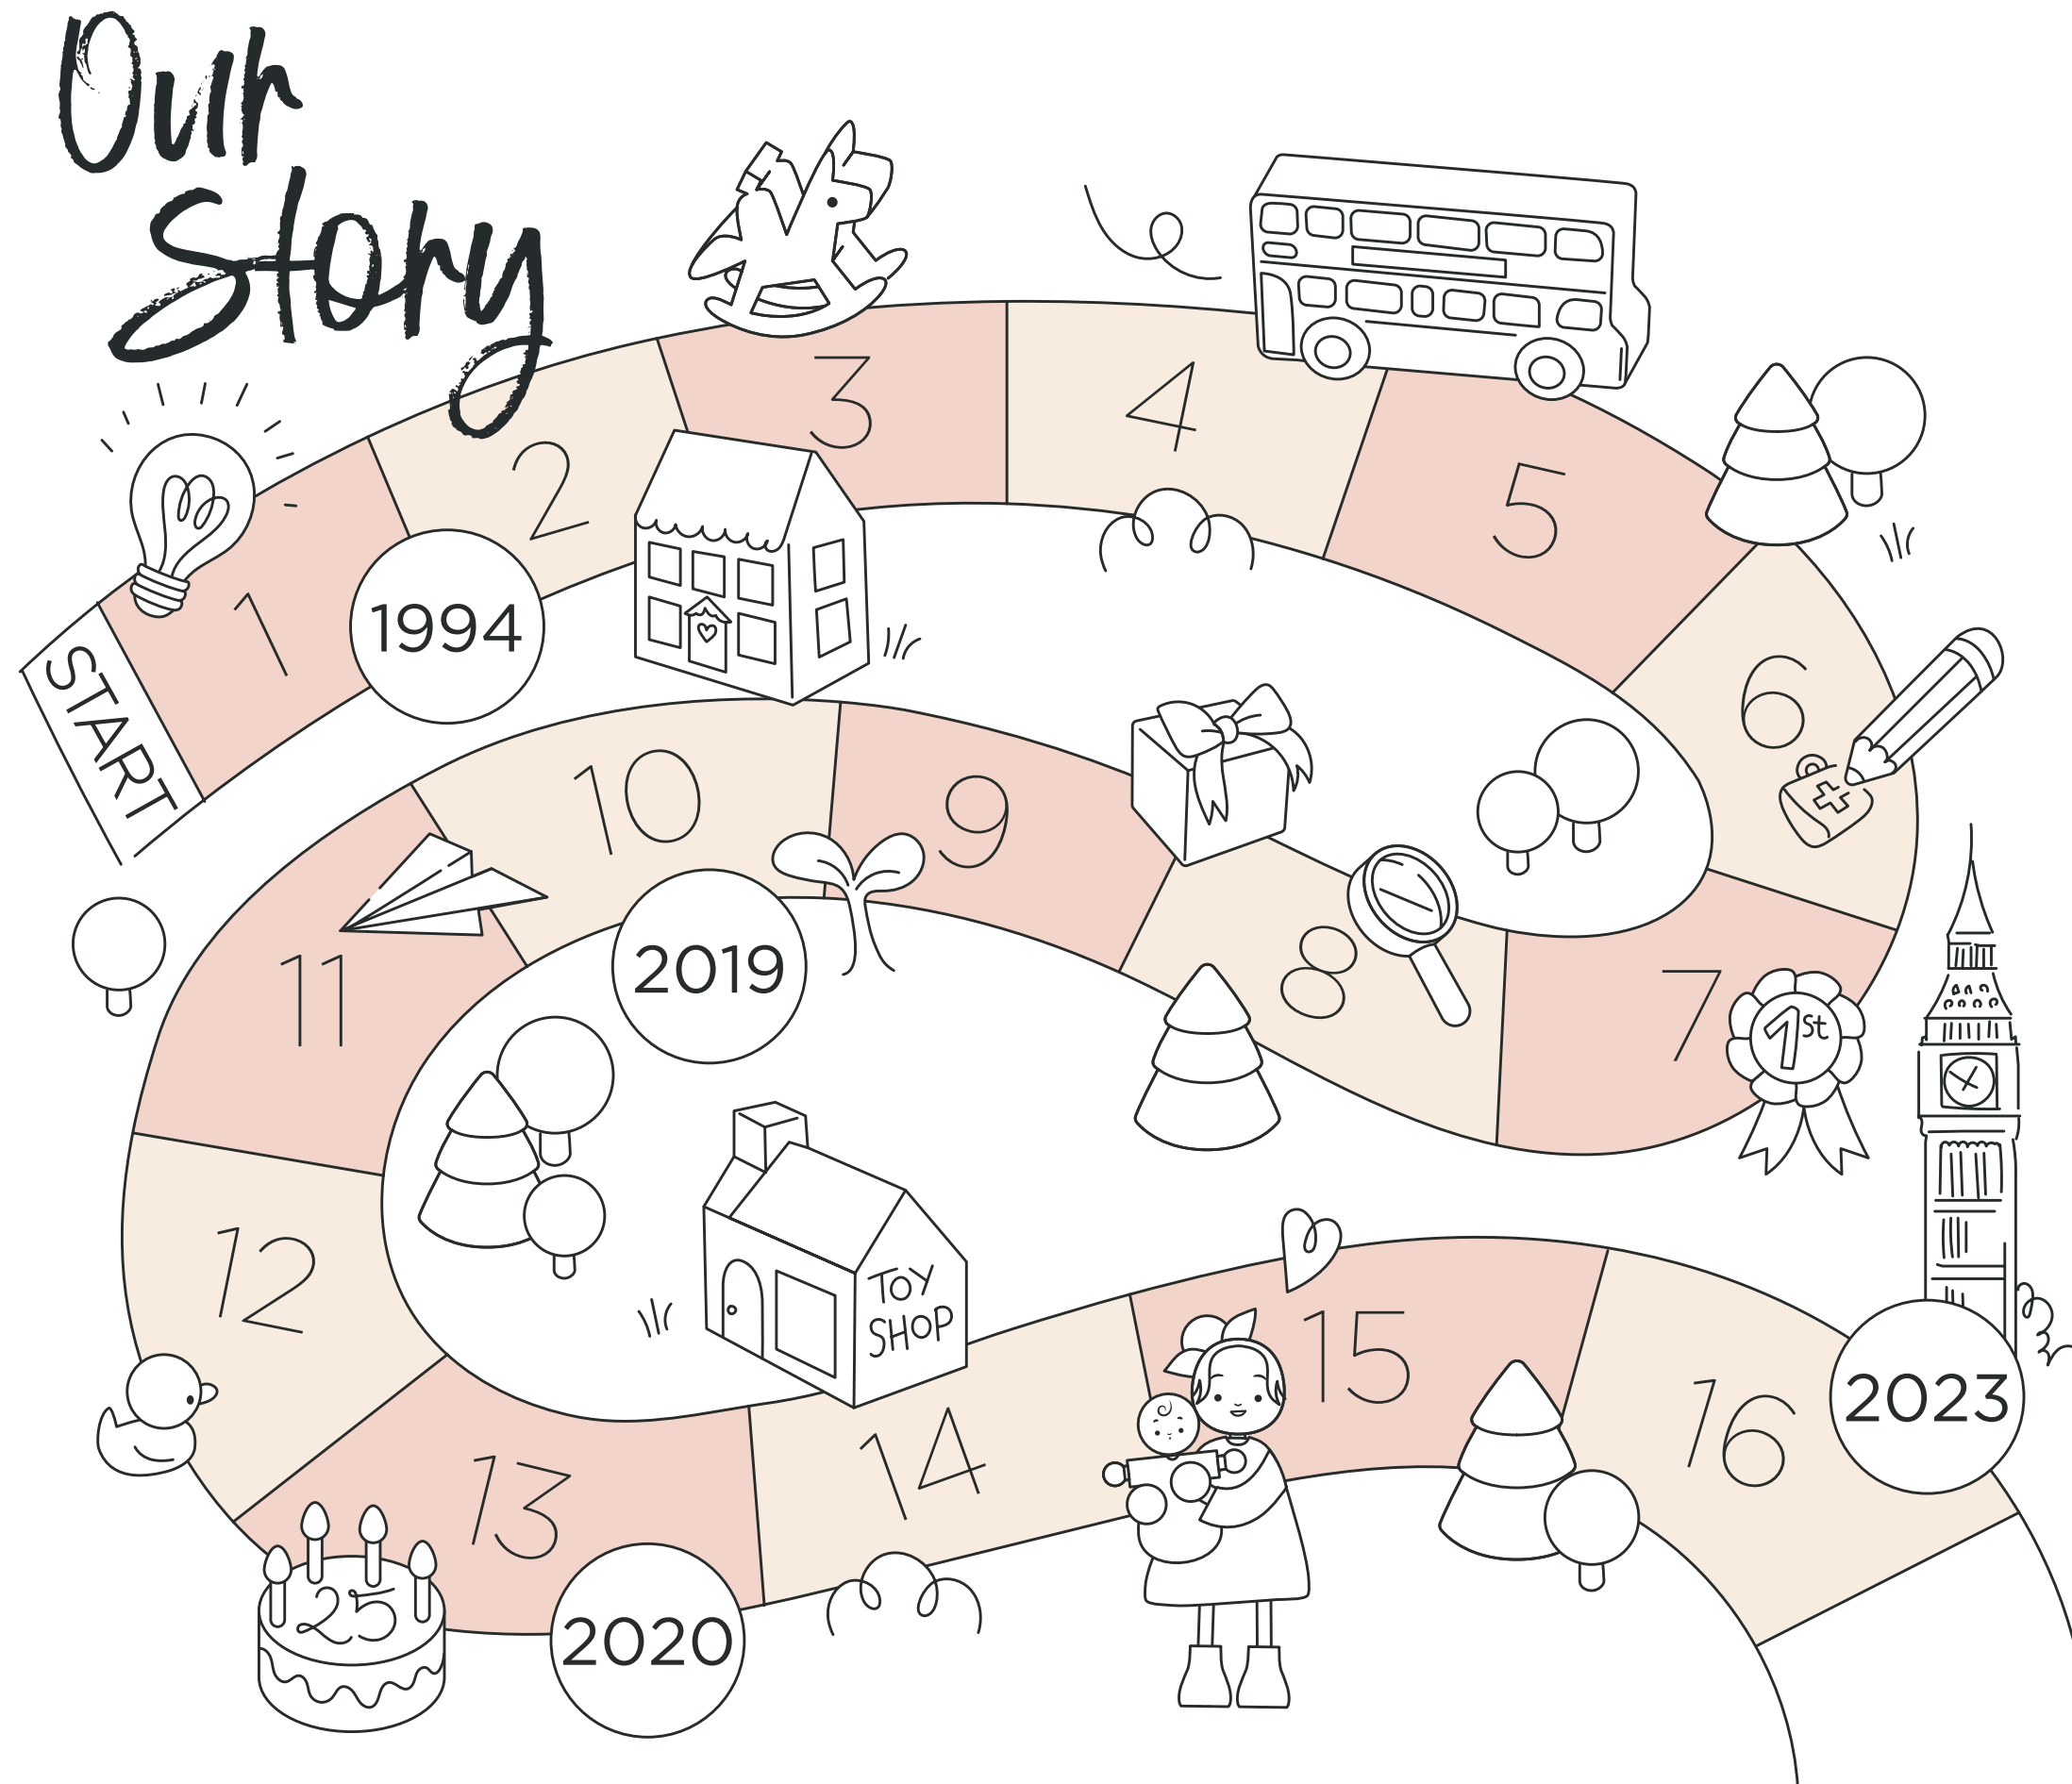

5. To this day, all of our traditional toys and treasures are designed right here in London, UK.

6. We take quality & design very seriously. All of our toys are thoroughly researched and tested for at least 18 months before they get our seal of approval.

7. We are extremely proud that our toys continue to win many awards and accolades across all areas - from design to quality, sustainability and play value.

8. Rest assured, we rigorously safety test our toys and always adhere to the highest industry standards.

9. Our beautiful wooden toys are built to last, made to be loved for generations to come.

10. Since 2019, our One Tree Planted initiative aims to give back to our planet. For every dollar (or equivalent) donated, they will plant one tree.

11. We're on a mission to always do better and have pledged to remove 100% of plastic from our packaging & as many toys as possible.

12. We believe in keeping it green. From the very beginning, we've always put our planet and our people first. It's a way of life for us.

13. In 2020 we celebrated 25 years in the toy making business, using the same ethics and beliefs that we first set out with.

14. Today we sell our classic toys all over the globe, through our valued distributors, toy shops and online stores.

15. With family at it's heart, our toys continue to spark young imaginations through learning based fun, ready to be cherished and enjoyed for a lifetime of play.

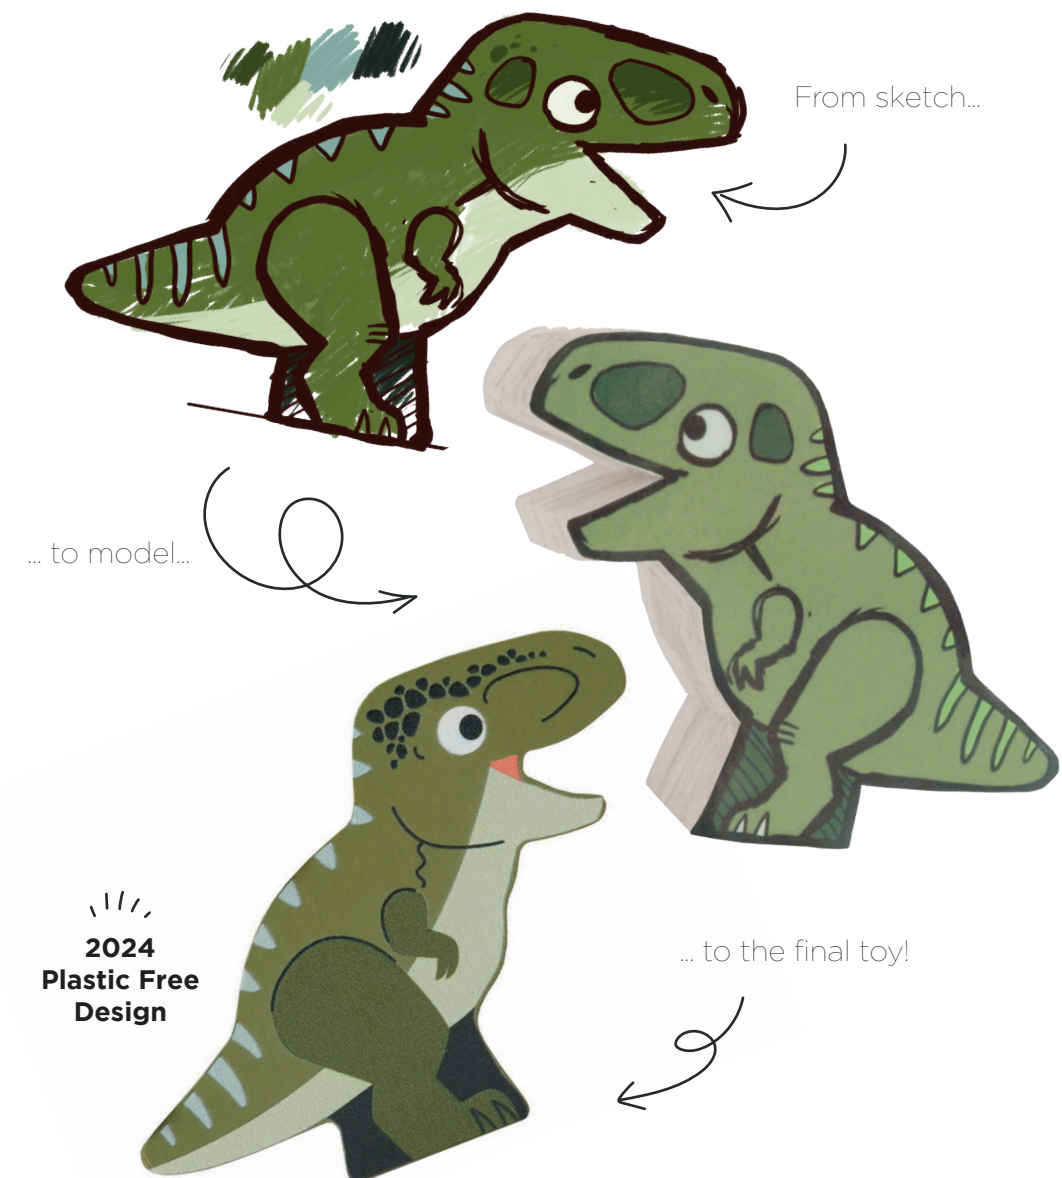

16. We have entered the world of UK production, and we couldn't be more thrilled. As part of this exciting venture, we've recently launched our first-ever limited-edition London Bus. This iconic vehicle has been meticulously crafted, honouring the rich heritage and cultural significance of England's vibrant capital city.

The Magic of Play

A happy childhood should be full of possibilities to explore, learn, create and develop through play. Our tactile wooden toys are designed to set little ones up for a lifetime of possibilities, through the Magic of Play.

Plastic Free
Design

Designed in London

Did you know that it can take our in-house design team up to 18 months to develop a new Le Toy Van toy? That's because we take play very seriously. It all starts with an idea. Then, from sketches, to concepts and eventually a working 3D model, it is tested and played with by children for their seal of approval - before it makes it to our toy shop.

PLASTIC FREE TOYS

As a responsible brand, we're constantly striving to improve our products and are on a mission to remove all plastic parts from our toy range. So, wherever you see this icon, you can be sure there's no plastic involved whatsoever. For eco-friendly fun at its finest.

The mark of responsible forestry

FSC™ - certified wood

Wood is good. That's why all of our toys and treasures are made using FSC™ - certified wood (wood from sustainably managed forests) so you can be confident that when you purchase from us, the materials used will benefit local communities, wildlife and our precious planet, for future generations to enjoy.

Look for our FSC®-certified products!

NEW PRODUCTS

Shop our latest products wherever you see this icon. Our talented team of toy makers are constantly innovating and refreshing our range of wooden toys to bring you the very best products to inspire imaginative play, for generations to come.

THE KEY TO DEVELOPMENT SUCCESS

We make sure that all our toys at least aid 3 of the developmental skills below, we pride ourselves on exploration. Using the Magic of Play to educate. The relevant icons can now be found on our packaging, to help buyers understand how our toys can benefit.

THE MAGIC OF PLAY

WOOD IS GOOD

At Le Toy Van we love wood. it's 100% natural, supremely tactile, eco-friendly, safe and long-lasting. We only ever use sustainable wood in our toys, using a combination of FSC™ - certified wood & Indonesian legal wood. these schemes ensure the wood for our toys meets the highest environmental and social standards.

Our toys are handmade with love in Indonesia & China. We carefully select our places of production, regularly visiting our factories and have long term relationships where we trust and support their ethical working practices. We are proud to be say we have added a UK production site.

SAFETY IS ALWAYS OUR NUMBER ONE PRIORITY

and we work hard across all stages of production to meet and exceed industry standards. We create durable structures and designs, with supreme quality manufacturing, made with safe materials including natural wood and water-based paints.

Rigorous safety testing is carried out at every stage, ensuring kid safe edges and non-toxic paints for safe play every day.

Our full collection is tested by the SGS laboratories, to the rigorous ASTM, BS EN-71, EN-71, AUS and CCPSIA standards.

Our most recent move towards planet friendly production and our plastic-free ambition is the introduction of a new eco friendly sachet to replace the existing silica gel that we use to protect our toys from the threat of damage caused by mould and moisture.

Baby and Toddler toys

Created to develop key senses through colour, shape, sound and texture, Le Toy Van Baby & Toddler toys are layered with fun and discovery for developing imaginations. Designed for small, inquisitive hands (and mouths) – non-toxic, water-based paints, rounded edges and no small pieces – ensure safe play every day, while our robust wooden construction means they will remain favourites for years to come.
